Crusaders:

The Nation seems still to be in a high state of tension on account of the coming Supreme Court decision on the Gold cases. Recognition of this is furnished by the two unprecedented announcements of delay. Obviously the court would relieve this tension and announce its decision if it could. The balance of power in the Court must be on the fence. One or three of the judges just can't make up their minds.

Most of the existing anxiety is entirely unnecessary. The decision, whatever it is, will not be of much importance to the country as a whole, but it will be very important to the Supreme Court. Whether the Supreme Court realizes this or not, they should. The gentlemen have ample reason for their own anxiety.

After all phases of the matter have been sifted down, the fact is that the Supreme Court of the United States is nothing more nor less than Nine Old Men. Theoretically, when one of them blows a puff of cigar smoke across the room, he changes the mass distribution of the Universe and affects the motion of the farthest star. Actually, what they say or do will not affect the course of the earth around the sun nor will it more than momentarily affect the march of human events.

If the decision of the Supreme Court conforms with the march of human events, the Supreme Court will march with them. If the decision of the Supreme Court opposes the march of human events, the march of human events will march over the Supreme Court.

Economic Liberty for all Humanity marches onward, away from the Tyranny of Gold.

Yours in the fellowship of freedom,

Geo. W. Christians, President,
Crusaders for Economic Liberty.
