Chief Justice Hughes:

I am a worker. Before the N.R.A. came in effect I was working 84 hrs per week. When the N.R.A. came in effect they lowered my hours to 48 and raised my pay.

Do you think it is fair to take away a small privilege such as above. Do you realize that we only live once and that we might as well enjoy life. Not work like slaves our whole life and then be buried with out seeing anything in life. I beg of you the kindly bring back the N.R.A.

Yes I know you are probably thinking I am radical. Well I wasn't in fact I was a very good citizen and unless the N.R.A. is brought back to life I can assure you that myself and several others will turn communist.

Please don't let us do this and kindly bring back the N.R.A.

A disappointed citizen
